May 10, 2005

Dear Sir or Madam:

I would like this letter to be considered an endorsement for the company of John Hayman and Sons Company of London Ontario.

We have worked on several major building projects with Brian and Peter Hayman, along with various on-site supervisors dating back to 1990 and overall totalling roughly \$15 million in construction costs with the most recent being a \$2.7 million residence in 2004. The most significantly challenging of these projects took place in 1998, which was a renovation of a 68-year old residence with an exceptionally tight construction period of May to September 9, 1998. The success of this project demonstrates both Brian's and Peter's teamwork approach at its best.

The Hayman team works closely with clients, constantly reacting favourably to their concerns, and ever mindful of their needs.

We would have no hesitation in soliciting John Hayman and Sons for future projects, large or small.

Yours truly,

Michael Sheridan
College Administrator
