

SHARON VILLAGE CARE HOMES

April 25, 2019

Re: Letter of Recommendation – Hayman Construction Inc.

To Whom It May Concern:

We would like to take this opportunity to express our appreciation to Hayman Construction Inc. for their excellent work as the Construction Manager for our new 96 bed Long-Term Care Facility in Mount Forest, Ontario.

This was a complex project valued at over \$16 million in construction costs, with 3 storeys and a basement, and a total floor area of about 71,000 sf or 6,600 sm.

The construction work began in April 2017 and was completed in February 2019.

We found that Hayman worked with a high level of workmanship and attention to detail, and they provided a well-maintained construction site.

They exhibited extensive cooperation with all parties in managing the changes that inevitably take place in a project of this size.

Hayman's field and office staff were very cooperative and attentive to our requirements, and we are very pleased to recommend them to anyone looking for a contractor to perform high quality construction work.

Yours sincerely,

A handwritten signature in black ink, appearing to read "efezel", written in a cursive style.
