636 Wellington Street
London, Ontario
N6A 3R9

Attention: Mr. Peter Hayman

**RE: Da Vinci Military 'Survivability' Manufacturing Plant
Dorchester, Ontario**

Dear Peter:

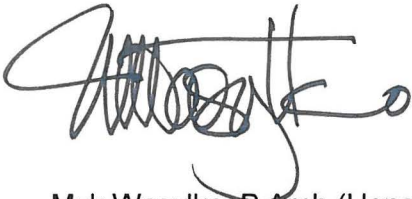

This letter is an acknowledgement of the successful completion of the Da Vinci Manufacturing Plant and our appreciation of the cooperation that we enjoyed from your dedicated, committed and competent staff. It truly was a pleasure to work with all of the sub-trades that were assembled for this project. Your team of builders and mechanics has made our design come to life in a very satisfying result.

This 27,400 square metre state-of-the-art facility was designed with many sustainable and innovative ideas that required specialized expertise to be brought to the team. From the outset this project came with both budgetary and scheduling challenges, and both challenges were met with satisfaction of the client and the consultants.

The Hayman team throughout showed its dedication and often provided cost effective alternative solutions to the benefit of the end result. By the same token, any criticisms were taken in the same positive spirit – a truly team effort from start to completion.

We have nothing but gratitude and admiration and look forward to future opportunities to again work on most gratifying experiences with the Hayman team.

Sincerely,

Myk Wasytko, B.Arch (Hons.), OAA, MRAIC
